The War in Cuba—The Tonquin Affair Nearing an End—The Massachusetts Strikers.

Attempt to Assassinate the President of Guatemala—Minor Mention of Interest.

A Kentucky Lynching.

CINCINNATI, April 15.—A Mr. Sterling (Ky.) special says: "Fifty masked men went to Jackson, Breathitt county, last Wednesday night and took from the jail Henry Hillburn, white, and Ben Strong, colored, and hung them. Killburn was charged with the murder of William Throp last January. Strong was suspected of being concerned in the same murder. A notice was pinned on the victims stating that all perpetrators of such crimes would receive like punishment. Killburn had killed eight men."

The Karpis Gang Strikers.

DELPHOS, Ohio, April 15.—The strike of the mechanics and shop laborers of the Toledo, Cincinnati and St. Louis railroad, which began last Thursday, still continues. It extends to Dayton, Ohio. No work is being done in the shops. The men are trying to get the conductors and engineers to join them. Their grievance is that they have not been paid for several months. Receiver Orwig promised early payment in certificates, which would be cashed by the agents, but the men are not satisfied.

It is Settled.

BOSTON, April 15.—The Transcript says: "The meeting of the conference of committees of the Union Pacific and Chicago, Burlington and Quincy Railroad companies with General Manager Clark, of the Union Pacific, resulted in the first definite step of progress toward a settlement of their difficulties. The Burlington and Quincy road has agreed to waive its claim for a full share in the business of the Union Pacific at Omaha, and will allow the Union Pacific to deliver its share of Nebraska business to the tripartite roads, the Iowa lines to say what share the Chicago, Burlington and Quincy shall have."

Gould Overruled.

NEW YORK, April 15.—At a meeting of the board of directors of the Wabash railroad company, held yesterday in the Western Union building, it was decided, upon the recommendation of Jay Gould, to add to the executive committee James F. Joy, of Detroit; Colonel George L. Dunlap, of Chicago, and George J. Gould, of New York. The first named gentlemen are practical railroad men and will confer with the management in the west in regard to furthering the interests of the road, Mr. Gould desiring to be relieved of the burden of attending to the details of the management as he has heretofore been compelled to.

The Spanish in Puerto.

WASHINGTON, April 15.—The Spanish ministers received a dispatch yesterday from the governor-general of Cuba in answer to inquiries sent by him as to the extent and character of Aguiro's movement in Cuba, in which it is stated that the Aguiro party, numbering only eighteen or twenty men, has divided into several small detachments, which are making for Cienfuegos with Spanish troops in close pursuit, and that, with the exception of the movements of this small band, there is nothing to disturb the tranquillity of the island. Information was also received at the Spanish legation from New Orleans that the rumors there of the organization of another expedition in the United States for a descent upon Cuba could not be traced to any reliable source.

The Senate on the Postoffice.

WASHINGTON, April 15.—The postoffice appropriation bill was reported to the senate from the committee on appropriations yesterday afternoon. As amended by the senate committee it provides for a total appropriation of \$49,725,400, which is \$5,235,800 in excess of the amount called for by the bill as it left the House. The principal items of increase over the amounts in the house bill are as follows:

For compensation of postmasters, from \$10,500,000 to \$11,750,000; for payment of letter-carriers and incidental expenses of the free delivery system, from

\$3,600,000 to \$4,000,000. For transportation of mails on railroad routes from \$11,700,000 to \$12,750,000. An appropriation of \$185,000 for "necessary and special facilities of trunk lines," and \$40,500 for expenses of delegates to the universal postal union congress, to be held at Lisbon, October 4, are added to the house bill. Other amendments were made by the senate of less importance.

LONDON, April 15.—Rumors are afloat that an attempt will shortly be made to blow up one of the public buildings in London. The activity of the dynamiters continues unabated. They meet twice every week for the purpose of making plans and preparations for future outrages. It is believed that the English and French police are fully acquainted with their movements and that every effort will be made to counteract their plots. It is also believed that one of the most trusted dynamite leaders keeps the police fully informed of all their plans.

Pennsylvania Convention.

HARRISBURG, April 15.—A majority of the delegates to the republican state convention have arrived. No developments yet, but from the quiet working of the leaders, it looks as if a fight will be made against the Blaine element, which is now in the majority. Grew will have no particular opposition for temporary chairman, and may possibly be made permanent chairman. The principal contest during the convention will, it is said, be on delegates at large.

Settling a Clerk's Salary.

MACON, Ga., April 15.—Wm. Landisburg, of the firm of M. Mewshaw & Co., and J. K. B. The mail weigher was burned to death, and the engineer and fireman are believed to be fatally injured. The conductor and several train men were badly bruised. No other passengers were injured. The papers are making a fuss about the discovery of an infant on the door step of a Jones street residence. The SENTINEL spoke of the discovery of the kid Saturday.

The Lafayette Courier has a big account of the capture of John Koenan, the defaulting county treasurer from Ohio. The man passed through the city yesterday, on a Wabash train, in charge of a detective.

Yesterday was Arbor Day at the Wayne township schools. At school houses Nos. 7, 6 and 3 there were appropriate ceremonies. At school house No. 6 forty trees were planted, and at No. 7 twenty young saplings were planted to bud and blossom and throw an umbrageous shade.

The County Asylum.

In compliance with the requests of a number of THE SENTINEL'S patrons, we publish the full report of the grand jury's visit to the poor farm, at their last session:

To the Hon. Samuel M. Hensch, judge of the criminal court, of Allen county:

Your grand jury would respectfully report to your honor, that we have visited the county poor house and examined into the condition, comfort, health and treatment of the persons there living, and we find that everything about this institution is kept in first-class shape. That the condition of the inmates and their health and comfort is carefully looked after and attended to; that in our investigation of this place we find nothing to criticize and very much to praise. The farm, stock and property of the county are well taken care of and properly managed. The stable upon the farm is in a dangerous condition and not properly built for the accommodation of the horses necessarily in use upon the poor farm. We recommend that a suitable stable be built upon said farm. We make this short report because we find that with the exception of the stable above stated, there is nothing in the conduct or management of this institution to find fault with or criticize. We have nothing but praise for the management of this important public institution.

WILLIAM BRANSTATER, Foreman.

A former invalid writes: "I was greatly reduced in health and strength, caused by bad blood. I had a dozen boils in different parts of my body, and suffered many aches and pains, while the least exertion gave me great fatigue. I took three bottles of Dr. Cassell's Yellow Dock and Sarsaparilla and am completely cured. At night I enjoy refreshing, dreamless slumber, and all day I feel energetic and strong."

\$10 Reward.

Recognizing the importance of art cultivation and knowing the proficiency to which some of the school children have obtained, we offer the following inducement to further stimulate their efforts in design and art.

We will on the 19th day of April pay ten dollars for the best original design submitted to us by any one of the pupils, not over sixteen years of age, of the public or sectarian schools of our country, the design to be used for decorating the ceiling of our paint and paper store, No. 191 Calhoun street. The judges are to be five in number and to be selected from the contestants. The prize is to be awarded at our paint and paper store, No. 191 Calhoun street, where we have just received a fine selection of ceiling decoration and wall papers.

While we have the best line of low priced carpets in the city, we are specially pushing fine goods. We are selling, for instance, a better and heavier Extra Super Ingrain Carpet than has ever before been offered our citizens and we have the exclusive agency in Fort Wayne of these goods. They count fully eleven hundred ends in the warp. Lowell's and other standard makes, which we also have, count only ten hundred and eighty, while the low grade extra supers scarcely count nine hundred and fifty.
